 VOLUME 60  
 CONTROL PLANS  
 FOR FIRE ANTS  
 ARE ORGANIZED

 W. A. RUFFIN  
 API Extension Entomologist  
 Before long, the weather will  
 turn warm and imported fire  
 ants will begin showing up—  
 just like they did last year.  
 Then many folks over the state  
 will be saying, "What happen-  
 ed to the government's pro-  
 gram to get rid of fire ants?"  
 Right here I would like to  
 make a statement of the  
 government's program to  
 reach a point where we  
 would much rather let the  
 government solve our problems  
 than take the trouble of solv-  
 ing them ourselves. As your  
 Extension entomologist, I want  
 to tell you that we at Auburn  
 have the responsibility of do-  
 ing research to determine ways  
 of controlling pests, and then  
 relaying this information to  
 you. And this is all we can do  
 about the fire ant problem.  
 Research workers at the API  
 Experiment Station have  
 proved that four pounds of chlo-  
 dane, two pounds of dieldrin,  
 or two pounds of heptachlor  
 per acre will control fire ants  
 for five or more years. These  
 materials are effective when  
 mixed with fertilizer and  
 broadcast or when applied in  
 lone as granules. When applied  
 in this manner, on individual  
 farms, these insecticides are  
 not a hazard to farm animals.  
 However, we do not know for  
 sure what effect they have on  
 bees, beneficial insects, birds,  
 or fish. It is known that, if  
 applied over the area of a fish  
 pond, these materials will kill  
 the fish.  
 The insecticide alone will  
 cost about \$4 per acre. Fall  
 'Winter or early spring are the  
 best times to apply the material.  
 Now, if you want the govern-  
 ment to help kill your ants, re-  
 member that the law says state  
 and federal money must be  
 spent for "control, suppression,  
 and eradication of the impor-  
 tant fire ant." Eradication, in  
 simple language, means that all  
 ants in a given area must be  
 killed. To do this, farm land,  
 woodlands, swamps, all the  
 land, in other words, must be  
 treated. Most farmers want to  
 kill ants where the insects are  
 causing trouble, but they don't  
 want to pay for treating wood-  
 land and waste areas. In-  
 dividual farms cannot be  
 treated with the hope that this  
 alone will eradicate fire ants.  
 The men responsible for  
 spending "fire ant money" are  
 working hard to the job of er-  
 adicating the insects. If you  
 want their help, here's how to  
 get it.  
 First, you and your neighbors  
 get together and sign up 5000  
 or more acres to be treated.  
 Each landowner must agree to  
 pay one-third of the cost of  
 treating his land (about \$125  
 per acre). Present the request  
 for assistance to the county  
 fire ant committee, who in  
 turn will forward the request  
 to the state committee. Then  
 the state fire ant committee,  
 with the advice of state and  
 federal entomologists, will de-  
 cide whether treating the area  
 will help to "control, suppress,  
 and eradicate the ants." If the  
 committee rules in favor of  
 helping eradicate fire ants on  
 this land, the government will  
 begin treating the area.  
 There is only enough money  
 available in Alabama to treat  
 an area of land equal to one  
 average sized county. So if  
 you want to kill ants on all the  
 land you own, it would be wise  
 to apply for assistance now.

**22 YEARS AGO**  
The courtyard is undergoing an extensive facelift and improvement. A fish pond is being constructed surrounding the flowing well and drinking fountains are being placed outside the pond. Flowers and shrubbery will be planted about the pond, as well as in other parts of the yard. Misses Mollie Blue and Nettie Ruth Walker are supervising the landscaping and John Garrett Jr. deserves credit for planting the seed.

Louie Brooks is in Troy hospital recuperating from an operation recently undergone to remove an iron bolt from his knee. He has been in the hospital since he was in a wreck near Windham's Mill, when the truck he was driving crashed into the side of a bridge.

The Junior Class of Elba High School was entertained at a delightful party to the home of Miss Eleanor Lee on Friday evening, February 12. Spring flowers and Valentines attractively decorated the home. Games and contests were directed by Jake Bonneau, Mary Ruth Fleming, and Miss Brunson to furnish entertainment for the guests throughout the evening. Sandwiches and hot chocolate were served upon completion of the games and contests.

The Elba Chapter of the Future Farmers of America is engaged in landscaping the grounds of the Vocational Agriculture building.

Physicians and pharmacists often wonder whether many current health articles are not causing some mental distress. Their information about new miracle drugs, usually accompanied by vivid descriptions of disease symptoms, often may influence one to think they have the disease they are reading about.

If you have any constantly re-occurring unusual symptoms that you think might be serious, don't worry about it. Just visit your physician and let him find out if you really have any problem.

Opp Salutes Its  
Oldest Industry

Opp—Citizens of Opp and Covington County will "salute" their oldest industry, the Opp and Nicolas Mills, March 21-April 5. Bert Moore and H. L. Cummins, general co-chairmen of the celebration announced.

Leroy Bowdoin has entered Holmes Junior College at Goodman, Miss. Leroy was a star on the Elba High School football team for the past two years and a mainstay on the baseball team. He was popular among his classmates in the senior class of '36. Leroy should make his mark in College athletics for he has what it takes to make a winning athlete.

Mrs. Wesley Harris was painfully but not seriously injured last Saturday when she fell from a stepladder while adjusting curtains in her home. She was taken to the Troy hospital where it was found she had no broken bones or sustained any serious injury. She was able to return home Tuesday.

A house belonging to Luther Morris was occupied by W. B. Inzer and family located east of Smith Avenue, was slightly damaged by fire early Monday morning. The flames were extinguished before much damage was done. This is an indication of Elba's need for more efficient fire equipment. A new truck has been ordered, but the auto strike in Detroit has held up its arrival.

The drug business in Elba must be picking up considerably. All three of the Elba drug stores are undergoing extensive improvements. Whitman Drug Co. has installed a modern up-front prescription department. Elba Drug Co. is installing a metal ceiling, painting its walls, and undergoing other repairs. Peoples Drug Store is painting the floor and walls and will soon receive a new outside coat of aluminum paint.

KINSTON GIRL  
WINS AWARD AS  
HONOR STUDENT

Montevallo—Annette Nevin, (above) Kinston, was recognized at Alabama College Tuesday for her scholastic ability. She was presented a \$15 cash award by the American Association of University Women for having made the highest grade point average of her class during the freshman year.

Annette was also recognized as one of the Alabama College honor students. She was listed on the Dean's List last semester.

Recently she was assistant director of the Purple production at the annual College Night program.

She is the daughter of Mr. and Mrs. E. C. Nevin, Kinston. She is a graduate of Kinston High School, and is majoring in speech at Alabama College. She was one of the top fifteen beauties chosen at the college's Elite Night program.

Farmers May Cancel  
Soil Bank Papers

Farmers who have approved agreements with the Soil Bank may withdraw those agreements any time before March 28, the ASC office has announced. In previous years the agreements could not be withdrawn after Feb. 20.

Those wishing to withdraw only part of their acreage may do so. When someone withdraws, the next person the list is notified that he may take advantage of the extra money.

## FOUNDATIONS

## You have to go down if you want to go up! That sounds like foolishness, but it isn't.

## If you plan to build a garage, you don't need to dig very much before you lay the foundation. But if you plan to rival a modern skyscraper, you must start deep below the earth's surface.

## Foundations of great buildings must go down until they rest on bed rock. Not until then is it safe to start going up.

## So the next time you look up at a building which rises far above you, don't forget the foundation that makes it possible.

## Our lives need such foundations, too. In the building of our lives, and those of our children, we are too often governed by what other people think or by our temporary wants and desires.

## But when life's storms come and its testing moments are upon us, it is the foundation that keeps us secure, or the lack of it that permits collapse. Only a life foundation that rests solidly upon faith in the eternal God is really adequate for the kind of character building we must do if we want our lives to be happy and successful.

## You've got to go as deep as that, if you want to go up.

## THE CHURCH FOR ALL... ALL FOR THE CHURCH

## The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend service regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

No child becomes a juvenile delinquent in a library. The boy or girl who is reading is not only out of trouble at that precise moment, but is also well on the way to becoming a better student in school and a more useful citizen in the future.

Anything that can be done to get children to read more helps the child, the family, the community and the nation.

## Twentieth Century Club Studios Poetry

The Twentieth Century Studio Club was delightfully entertained Thursday evening at the home of Mrs. Robert Cannon with Mrs. Lister Brunson as co-hostess. A delicious meal was served after the members had assembled.

The business session was presided over by the president, Mrs. Jake L. Morrow. The roll was called and minutes of the last meeting were read by the secretary, Mrs. Bill Martin. Poetry was the subject of the program for the evening. Mrs. George Lamar Collier gave a brilliant rendition of the reading "White Cliffs of Dover". Mrs. Jake L. Morrow talked on Southern Poetry. At the conclusion of the program, the meeting was adjourned.

Those present were Mrs. Harry Bassett, Mrs. L. A. Boyd III, Mrs. Fred Clark, Mrs. Ben Brock, Mrs. Leroy Miller, Mrs. Elmer Taylor, and the housewives, Mrs. Robert Cannon and Mrs. Lister Brunson.

### PROGRESS MADE FOR BUILDING METCALFE ROAD

Improvement of the Metcalfe road moved a step nearer at this week's meeting of the Board of County Commissioners when the board voted to borrow \$10,000 at 2 1/2 per cent interest from the Enterprise Banking Co. to use in purchases of land for the right of way.

The board discussed with an interested delegation details incident to the plan to build a new road from the old Polk home, voted to buy a truck from Peacock, Warren Motor Co., of Enterprise for \$2,234.42 as the low bid of four bids submitted, voted to ask bids for the purchase of a 1 1/2 ton dump truck; to repair breaks in the road between Wilkinston to the county line, to buy a carload of slag for use in road repairs and to buy two separate lots of lumber, one of 5,000 feet and the other of 4,000 feet.

## SALE OF EASTER SEALS TO OPEN HERE THIS WEEK

The Annual Fund Drive for the Alabama Society for Crippled Children and Adults will begin for Coffee County this week. This program is commonly known as the Easter Seal Drive with the purpose of raising funds to treat and care for crippled children and adults who are not financially able to have treatment.

During the last fiscal year, 314 Coffee County children and adults have been receiving treatment under this program. This treatment consisted of 126 days of hospitalization, X-rays, Drugs, Appliances and wheel chairs and all other treatment for people crippled from any cause. The funds raised in Coffee County each year are matched by State and Federal Funds and are expended for treatment of crippled children and adults.

In most instances, Doctors and experts such as Dr. Hannon of Mobile, contribute their services free in these cases. It is estimated that during the last fiscal year crippled children of Coffee County received treatment which would cost more than \$100,000 if the amount of money raised in Coffee County in any one year.

Mrs. Margaret Haire, West Coffee County Chairman, urged her committee urge every person to contribute to this cause with the knowledge that every dollar spent will assist someone less fortunate than the giver. In the event the workers fail to see you personally please mail your contribution to Mrs. Haire or to the Postoffice in care of the Crippled Children's Service.

## For Quick Results, Classified Pays Store Manager

As manager of Piggly Wiggly, B. T. Stanford has never had any doubts about the value of half-page display ads because his customers have long learned to watch for Piggly Wiggly values in The Elba Clipper.

Last week he learned that a little three-line ad in Classified gets quick results. He advertised his services for 11 words in the issue of The Elba Clipper Thursday, March 20. By Saturday, when customers were looking into the store to buy the values advertised in the half-page display, he had also sold his used lawnmower to a purchaser who learned about it through Classified.

## John Brunson Gets Setwite TB Post

The Board of Directors of the Society for the Eradication of Tuberculosis in the Wiregrass met in Dothan last week for their regular quarter Board Meeting.

Representing Coffee County were: John Brunson of Elba and Mrs. Jean Farris and Mrs. Una Edwards of Enterprise.

Mr. Brunson was appointed SETWITE Budget and Finance Committee and Mrs. Farris was appointed chairman of SETWITE's Publicity Committee. Mrs. Edwards is Coffee County's representative on SETWITE's Executive Committee.

The SETWITE organization promotes tuberculosis control work in the seven counties in southeast Alabama and is supported solely by the sale of Christmas Seals.

## FOX HUNT AND BAR-B-Q

## Goal - Line Play in Black and Gold Game

Halifax Jimmy Wise is shown carrying the ball as he makes good an extra point for the Black Squad in the second quarter of the Black and Gold game on a wide sweep around right end. Other players identifiable are Earl McCollum, 18, Joe Rex Chandler, 17, and Henry Clark, standing just to the rear of Chandler. (Complete story on inside page.)

## EASTER

Signs of Easter are appearing everywhere! Church choirs of the various churches are in the midst of rehearsals for special Easter music at regular services Easter Sunday.

Advertisements in this issue of The Elba Clipper tell of Easter values offered by local merchants.

Yes, signs of approaching Easter are appearing everywhere!

## Easter Symbols Stem From Old Folk Tales

Practices and beliefs of nearly a thousand years ago are responsible for hatching the Easter bunny, baby chicks, bluebirds and tricking lambs as the emblems of the Easter season.

Even fully new Easter bonnets have a legend to support them.

New clothes at Easter were believed to bring luck for a whole year. An old verse says: "On Easter let your clothes be new, or else be sure you will it rue."

The board had formerly voted, and then rescinded, a 21 per cent rate increase and a suit is now pending against the district seeking to have larger increase reinstated. The suit was filed by LaSalle National Bank of Chicago, which holds \$70,000 in revenue bonds of the gas district.

SOIL BANK MAY BE OPEN AGAIN FOR THIS AREA

The Chairman of the Coffee County ASC Committee, Lester Gunter, reports that most farmers who wanted to take part in the 1958 Acreage Reserve of the Soil Bank, but could not file signed agreements because of fund limitations, will apparently be able to sign up at the county office in the near future.

Both the Senate and House of Representatives have approved a supplemental appropriation of 250 million dollars to provide for additional acreage reserve participation. This will bring the total to 750 million dollars for the 1958 program. Because agreement on some detailed program provisions must still be reached in House-Senate conference, Congressional action on the supplemental appropriation is not yet complete. As soon as final action is taken, the county committee will get the "Go Ahead" for completing the sign-up. Preliminary steps have been taken by the State ASC Committee to prepare the way for immediate action when the supplemental funds are authorized.

In addition to farmers who have already filed signed agreements, which were in general covered by the initial appropriation for the Acreage Reserve, other eligible farmers will be in position to take part in the enlarged program.

These will include those whose names are on "waiting list" registers at the county office, and possibly other where there's evidence that they made an attempt to participate during the sign-up period.

## Soil Conservation Service News

By T. C. Self & Joe Wildman  
The value of the pine tree to Coffee County and to the South is beyond our imagination. Think of the many ways pine trees are beneficial to us. Lumber for construction, pulpwood for making paper and cardboard, fuel for heating our homes, shelter for animals and a very important part has been the holding of our soil, water and other natural resources where they have done the most good.

Considerable interest in reforestation is evident in Coffee County. As one rides in and through the various communities of the county the newly planted pine trees are in evidence. In twelve to fourteen years these trees will average eight inches in diameter. On the average five cords of pulpwood can be turned from one acre of pine trees in 12 to 14 years. As a tree grows from a seedling to a mature tree it doubles in board feet production.
